Sponsor Brief

The GStreamer Conference is an annual conference covering topics related to the GStreamer multimedia framework and related Open Source multimedia technologies. It is the premier conference to learn about the latest advances in Open Source multimedia for the desktop, server, mobile and embedded world on Linux, Android, Windows, OSX, and iOS.

In its sixth year, the conference once again takes place in Europe, with previous conferences occurring in Düsseldorf, Edinburgh, San Diego, Prague, and Cambridge. The last five years were great successes resulting in hundreds of professional and hobbyist attendees and many engaging talks.

Co-hosted alongside the Embedded Linux Conference Europe and LinuxCon Europe, this is a premier chance to advertise your company to decision makers and engineers working on Open Source based multimedia devices and applications.

It is also a great opportunity to network and recruit, and to support the GStreamer project.

Sponsorship funds will be used to bring together developers and community members through the organisation of conferences, hackfests, and social events in addition to providing travel sponsorship for contributors.

SPONSORSHIP OPPORTUNITIES

	Platinum €10,000	Gold €7,500	Silver €5,000	Bronze €2,500	Technical Sponsor*
